

Heimdal Agent installation for Ubuntu (18.04 and higher)

1. Using an install script

a. Download the install script

Download the Heimdal Agent for Ubuntu installation script from the following URL:

<https://procdn.heimdalsecurity.com/setup-linux/install-heimdal.sh>

Or via command line using wget:

```
wget "https://procdn.heimdalsecurity.com/setup-linux/install-heimdal.sh"
```

b. Run the install script

Make sure your private working directory is in the same location with the previously downloaded script, then run the following command:

```
sudo sh install-heimdal.sh -l "00000000-0000-0000-0000-000000000000"
```

Replace "00000000-0000-0000-0000-000000000000" with your license key, available in the Heimdal Dashboard.

c. Verify the Heimdal Agent's daemon is up and running

```
sudo systemctl status heimdal-clienthost
```

2. Manual installation

a. Update the packet index and install the prerequisites

```
sudo apt-get update  
sudo apt-get install ca-certificates curl unzip gnupg lsb-release netcat
```

b. Add Heimdal Security's public key

```
curl https://linuxrepo.heimdalsecurity.com/pgp-key.public \  
| sudo gpg --yes --dearmor -o \  
/usr/share/keyrings/heimdal-keyring.gpg
```

c. Add Heimdal Security's Linux repository

```
echo "deb [arch=amd64 signed-by=/usr/share/keyrings/heimdal-keyring.gpg]
https://linuxrepo.heimdalsecurity.com/apt-repo stable main" | sudo tee \
/etc/apt/sources.list.d/heimdal.list
```

d. Update repositories cache

```
sudo apt-get update
```

e. Install the Heimdal Agent

```
sudo apt-get install heimdal
```

Or, use the license key parameter to install it without prompt:

```
echo "00000000-0000-0000-0000-000000000000" | sudo apt-get install heimdal -y
```

Replace "00000000-0000-0000-0000-000000000000" with your license key, available in the Heimdal Dashboard.

f. Verify the Heimdal Agent's daemon is up and running

```
sudo systemctl status heimdal-clienthost
```

3. Removing the Heimdal Agent

To remove the Heimdal Agent, just type the following command:

```
sudo apt purge heimdal
```
